REPORT ON IEDC SUMMIT 2026 PROMOTIONAL ACTIVITIES

The **IEDC Summit 2026**, scheduled to be held on **28 September 2026** at **Sahrdaya College of Engineering & Technology, Kodakara, Thrissur, Kerala**, with the theme **"Innovation Beyond the Future,"** was promoted by the **IEDC Wing of Rajagiri School of Engineering & Technology (RSET)** as part of its pre-event promotional activities. The promotional campaign was undertaken with the objective of creating awareness among students about the summit and encouraging them to actively participate in the event.

As part of the digital promotional campaign, the RSET IEDC Wing **created and published an Instagram reel** highlighting the IEDC Summit and its significance. In addition to the reel, **posters and other promotional creatives** were designed and shared through social media platforms. These materials communicated important information about the summit and helped generate interest among students. The use of visually engaging digital content provided an effective way to reach a wider student audience and encourage them to explore the opportunities associated with the summit. The promotional video can be accessed here: https://www.instagram.com/reel/DdQZIDSSmhY/?stkn=MW1lbDV1MW83OWJ6MA==

The promotional activities were further extended through **WhatsApp groups and channels**, where information about the summit and the promotional materials were circulated among students. The IEDC Wing also carried out **offline promotion by visiting classrooms and making announcements about the summit**. Students were informed about the event and encouraged to attend and make use of the opportunities available through the summit. Direct classroom interaction complemented the online campaign and helped ensure that the information reached students who may not have encountered the digital promotions.

Overall, the promotional campaign involved a combination of **social media promotion, WhatsApp communication, poster circulation, and direct classroom announcements**. Through these activities, the RSET IEDC Wing actively contributed to spreading awareness about IEDC Summit 2026 and encouraging student participation. The campaign also helped highlight the relevance of the summit to students interested in **innovation, entrepreneurship, startups, emerging technologies, networking, and learning opportunities**. By undertaking coordinated online and offline promotional efforts, the team supported the broader objective of encouraging students to engage with the IEDC ecosystem and participate in the summit.
