Profile

Information Technology undergraduate with a strong academic record and hands-on experience in full stack web development. A proactive and adaptable individual with strengths in communication, teamwork, leadership, documentation, and event co-ordination. Experienced in applying technical knowledge to practical projects while taking ownership of responsibilities and working effectively in collaborative environments. Interested in software development, problem solving, and building practical solutions to real-world challenges.

Education

Rajagiri School of Engineering and Technology **2024–Present**
B.Tech in Information Technology *Kochi, Kerala*

- CGPA: 9.10 (after four semesters)
- Branch Topper in First Semester
- Merit Award Recipient

Mar Thoma Residential School, Thiruvalla **2022**
ISC (Class XII) *Pathanamthitta, Kerala*

- Percentage: 97%
- Third Rank in School
- Recipient of Mr. Binoj Varghese Kattayickal Memorial Merit Award

Mar Thoma Residential School, Thiruvalla **2020**
ICSE (Class X) *Pathanamthitta, Kerala*

- Percentage: 95.6%

Experience

Cognifyz IT Solutions Pvt. Ltd. **09 Jul 2026 – 09 Aug 2026**
Full Stack Development Intern *Online*

- Completed eight progressive full stack development tasks covering frontend development, server-side programming, REST APIs, database integration, authentication, external API integration, and advanced backend functionality.
- Built web applications using Node.js, Express.js, EJS, HTML, CSS, and JavaScript, implementing interactive interfaces, server-side functionality, form handling, validation, and CRUD-based operations.
- Worked with MongoDB and Mongoose for database-driven applications, implementing user registration, secure password hashing, session-based authentication, protected routes, and user-specific task management.
- Integrated an external Weather API and implemented rate limiting, error handling, custom middleware, server-side caching, and scheduled background jobs to improve application functionality and reliability.

Voleergo Solutions LLP **04 May 2026 – 15 May 2026**
Python Full Stack Development Intern *On-site*

- Gained hands-on experience in full stack web development using Python, Django, HTML, CSS, JavaScript, and React fundamentals.
- Developed responsive frontend interfaces and worked with Django backend functionality to understand the complete flow of database-driven web applications.
- Worked with REST APIs, database integration, authentication workflows, and SQLite while applying CRUD concepts in web application development.
- Used Git and GitHub for version control and Postman for API testing, debugging, and validating backend functionality.

Projects

MessMate **Personal Project**
Full Stack Web Application *React, Vite, Tailwind CSS, Node.js, Express.js*

- Developed a full-stack web application using React and Node.js, focusing on responsive user interfaces, modular application architecture, and efficient client-server communication.
- Built interactive frontend components and backend API endpoints using Express.js, gaining practical experience in full-stack application development and REST API integration.

Student Attendance Management System **Personal Project**
Web-Based Attendance Management Application *HTML, CSS, JavaScript, PHP, MySQL, PDO*

- Built a web-based attendance management system with teacher authentication, student record management, and attendance recording for individual subjects and dates.
- Implemented attendance history filtering, dashboard statistics, server-side validation, PHP sessions, password hashing, and PDO prepared statements for database operations.

EV Charging System **Personal Project**
Web-Based EV Charging Application *Node.js, Express.js, Oracle Database, SQL, PL/SQL*

- Developed an EV charging application with customer registration and login, district-based charging station filtering, charger availability, and charging session management.
- Integrated Oracle Database using the `oracledb` driver and implemented backend workflows for starting and stopping charging sessions, calculating bills with GST, updating charger status, and invoking a PL/SQL billing procedure.

Task Manager **Cognifyz Internship Project**
Full Stack Web Application *Node.js, Express.js, EJS, MongoDB, Mongoose*

- Built a full-stack task management application with user registration, secure login, session-based authentication, protected dashboards, and user-specific task storage.
- Implemented task creation, editing, completion, and deletion with task priorities and due dates using MongoDB and Mongoose.
- Integrated a Weather API with rate limiting and error handling, and implemented custom middleware, server-side caching, and scheduled background jobs.

Digital Contact Book **Voleergo Internship Project**
Full Stack Web Application *Python, Django, HTML, CSS, JavaScript, SQLite*

- Developed a contact management application using Django and SQLite, supporting contact creation, editing, deletion, and search.
- Implemented CRUD operations and database integration through Django, with responsive frontend pages built using HTML, CSS, and JavaScript.

Technical Skills

- **Programming Languages:** Python, Java, C, C++, JavaScript, PHP, SQL
- **Web Technologies & Frameworks:** HTML, CSS, React, Vite, Tailwind CSS, Node.js, Express.js, Django, EJS, REST APIs
- **Databases:** MySQL, MongoDB, SQLite, Oracle Database
- **Tools:** Git, GitHub, Postman, VS Code
- **Core Concepts:** Object-Oriented Programming, Data Structures & Algorithms, CRUD Operations, Authentication, Database Integration

Leadership & Volunteering Experience

RSET IEDC & IIC – SEED **Jul 2026 – Present**
Documentation Team *RSET*

- Contributing to documentation, reporting, coordination, and information management for innovation and entrepreneurship initiatives at RSET.

Techkshetra 2026 **Sep 2026**
Core Committee Member – Documentation *Rajagiri School of Engineering & Technology*

- Served as a core committee member for documentation at the inter-college-level technical fest hosted by Rajagiri School of Engineering & Technology.

Huddle Global 2025 – Kerala Startup Mission (KSUM) **Dec 2025**
Volunteer

- Supported gifting and event coordination at Huddle Global, organized by Kerala Startup Mission (KSUM), and anchored an event segment.

Abhyanthriki 2025 **2025**
Volunteer – Documentation Subcore

- Contributed to technical event documentation, reporting, and coordination to maintain accurate records and smooth information flow.

Head Boy **2016–2017**
School Leadership Role

- Led student activities and school programs while coordinating between students and faculty.

Certifications

- Digital 101 – 30 Hour – Future Skills Prime (2025)
- Python Django Certification – G-Tec (2024)
- Advanced Excel – G-Tec (2024)
- Data Entry – G-Tec (2024)
